Background: The Coos County Area Transportation District recognizes the importance of a well-defined Personal Leave of Absence Policy (Leave Without Pay) to ensure stable staffing levels and maintain consistent, reliable public transit services for the community. By revising this policy, the agency aims to strike a balance between accommodating employees' needs for personal time off and ensuring that operational demands are met effectively. As all leave requests will be evaluated based on the agency's operational needs and staffing availability, the updated policy will help mitigate staffing shortages, ultimately enhancing the quality and reliability of public transit services that residents depend on. This proactive approach not only supports employee well-being but also fosters a more dependable transit system that can adapt to the community's needs.
